

How to Map your Listing in Matrix:

NOTE: entering the house number and street name alone is not enough. You must enter the Major/Minor area, the full address, city, state, and zip for any of these functions to work properly.

Located in the Property Info tab of the listing input page, click one of the pin placement options below the map:

[Map Address](#) [Place Pin Manually](#)
[Choose Google Street View](#)

Map Address: once an address has been entered, click the Map Address link to map the pin with the listing.

[Map Address](#) [Place Pin Manually](#)
[Choose Google Street View](#)

After you map the address, the pin will appear on the map. If the placement of the pin is wrong, you can map it manually but clicking the Place Pin Manually link (next page).

After you map the address, you'll also notice the Choose Google Street View link appears. Go to the next page to learn how to set the Google Street View.

Place Pin Manually: click the Place Pin Manually link, then after the map pop-up displays, zoom in for an aerial view (using the zoom [+/-] icons). To place the pin, simply left click, with the mouse, on the property. You can also drag/drop the pin by hovering over the pins current placement, hold down the left mouse button and move the pin where it needs to be. Release the mouse button when the pin is in the correct spot. Click “Done”.

Locate Address

Street Address
2880 Technology Blvd. West

City State Zip
Bozeman MT 59718

Locate

Reset

Place new pin

Selection Tips:
You can drag the blue pin to fine-tune its position. To replace the pin, click or tap 'Place new pin', then click or tap the map.

Cancel Done

Google Street View: click the Choose Google Street View link, then after the map pop-up displays, use the Google Map directional arrows [< / >] and zoom [+/-] icons to choose the best view of your listing. Click “OK” when you are finished.

Select Google Street View

Selected Property Location:
Latitude: 45.668601
Longitude: -111.074827

Reset to the default view for the selected location

Selection Tips:
Use the controls to select the view you want, click the OK button.

OK Cancel

NOTE: Google Street View will only work once you’ve mapped the property on the map.
